

BLANKNER CUBING CLUB

3rd – 5th Grade

BLANKNER CUBING CLUB is for students in grades 3rd-5th that enjoy cubing or puzzles. No experience necessary. All levels welcome – Beginner to Advanced. We will help teach the moves to master this challenging puzzle. Experienced cubers can learn faster algorithms, cube maintenance and practice for competitions. The club will potentially be capped at 12 members. The 1st 12 attendees will receive a Rubik's 3x3 Cube and Solution Booklet. The cube is on loan to them for the year from a grant making this program possible. The solution book will be theirs to keep. Come be a Blankner Cuber!

REGULAR MEETINGS are held before school in the Collaboration Lab (at the back of the media center) or the STEAM Lab Wednesday mornings from 8:00 - 8:30 a.m. For cancellations or changes, an email will be sent out to the parents of the club members.

Club members in good standing are expected to do the following:

- Attend regularly bringing their Rubik's cubes.
- Treat their cubes and fellow cubers with respect.
- Maintain proper behavior (as defined by the Code of Conduct).
- Have fun in learning!

OCPS hosts a *You Can Do The Cube Rubik's Cubing Team Competition* at the end of the year. This would be a fun goal to work toward.

Please contact Bettina McCormick if you have any questions or need more information. Email: bettina.mccormick@gmail.com
